

FAMILYLIFE® presents

# the art of marriage

## REGISTRATION TIPS

Once you have secured a date and location for your event, make it easy for couples to sign up with an online registration option!

**Check with your church to see if they have a registration platform you can use.**

*If your church does not, here are two online options to consider:*

- **Wufoo** is a free registration service and super easy to use.
- If you'd like something a little more robust, check out **Eventbrite**. It is free if the event registration is free.

**Get the word out online!**

**Pro tip:** Try making a Facebook event page and having others share it! You can include the registration page link so everyone in your city can hear about and register for your event!
